

APPLICATIONS

Wood

Metal

Plastic

Automotive Repair

Synthetic Leather

Adhesives

Heavy Duty Protective Coatings

DESCRIPTION

25-1475 is a HDI biuret. It is supplied at 75% solids in n-Butyl Acetate and Xylene.

SOLUBILITY AND COMPATIBILITY

Will generally mix with ketones, esters and aromatic hydrocarbons. Reduction should not be lower than 40% nvm, as this may cause sedimentation or turbidity, when stored for extended periods.

KEY BENEFITS

Weather Resistance High NCO Content Flexibility
