# S-1821-L

## Aqueous Barrier Coating

---

---

### Product Description

- Great water resistance
- Exceptional grease resistance
- Provides high moisture vapor resistance
- Flexible film properties

S-1821-L is an excellent barrier coating for paper and paperboard packaging. It demonstrates a good balance of oil, grease, water and water vapor resistance. S-1821-L meets the following FDA compliance for paper and paperboard packaging without limitations:

- 21 CFR 176.170 Components of paper and paperboard in contact with aqueous and fatty food
- 21 CFR 176.180 Components of paper and paperboard in contact with dry food

### Product Properties

|                  |              |
|------------------|--------------|
| Appearance:      | White liquid |
| Viscosity (cPs): | <1500 cps    |
| pH:              | 7.5-10.5     |
| Solids (%):      | 46.0-49.0    |
